

## **PhD Openings in CS at Georgia State University**

Three openings with full financial support are available for Ph.D. students starting Fall 2017. Each PhD student will receive \$19,000 stipend per year plus full tuition waiver. Our lab is conducting exciting cutting-edge research in big data analytics, data mining, databases, data visualization, machine learning, and bioinformatics. Degrees from CS, EE, Automation, Math, and other related areas are encouraged to apply. If you are interested, please email Prof. Yubao Wu ( [ywu28@gsu.edu](mailto:ywu28@gsu.edu) ) with your resume and transcripts. More information regarding the lab and research can be found at the website ( [www.robwu.net](http://www.robwu.net) ). The application website can be found at the following link.
